- ◆ Summary & Key Message

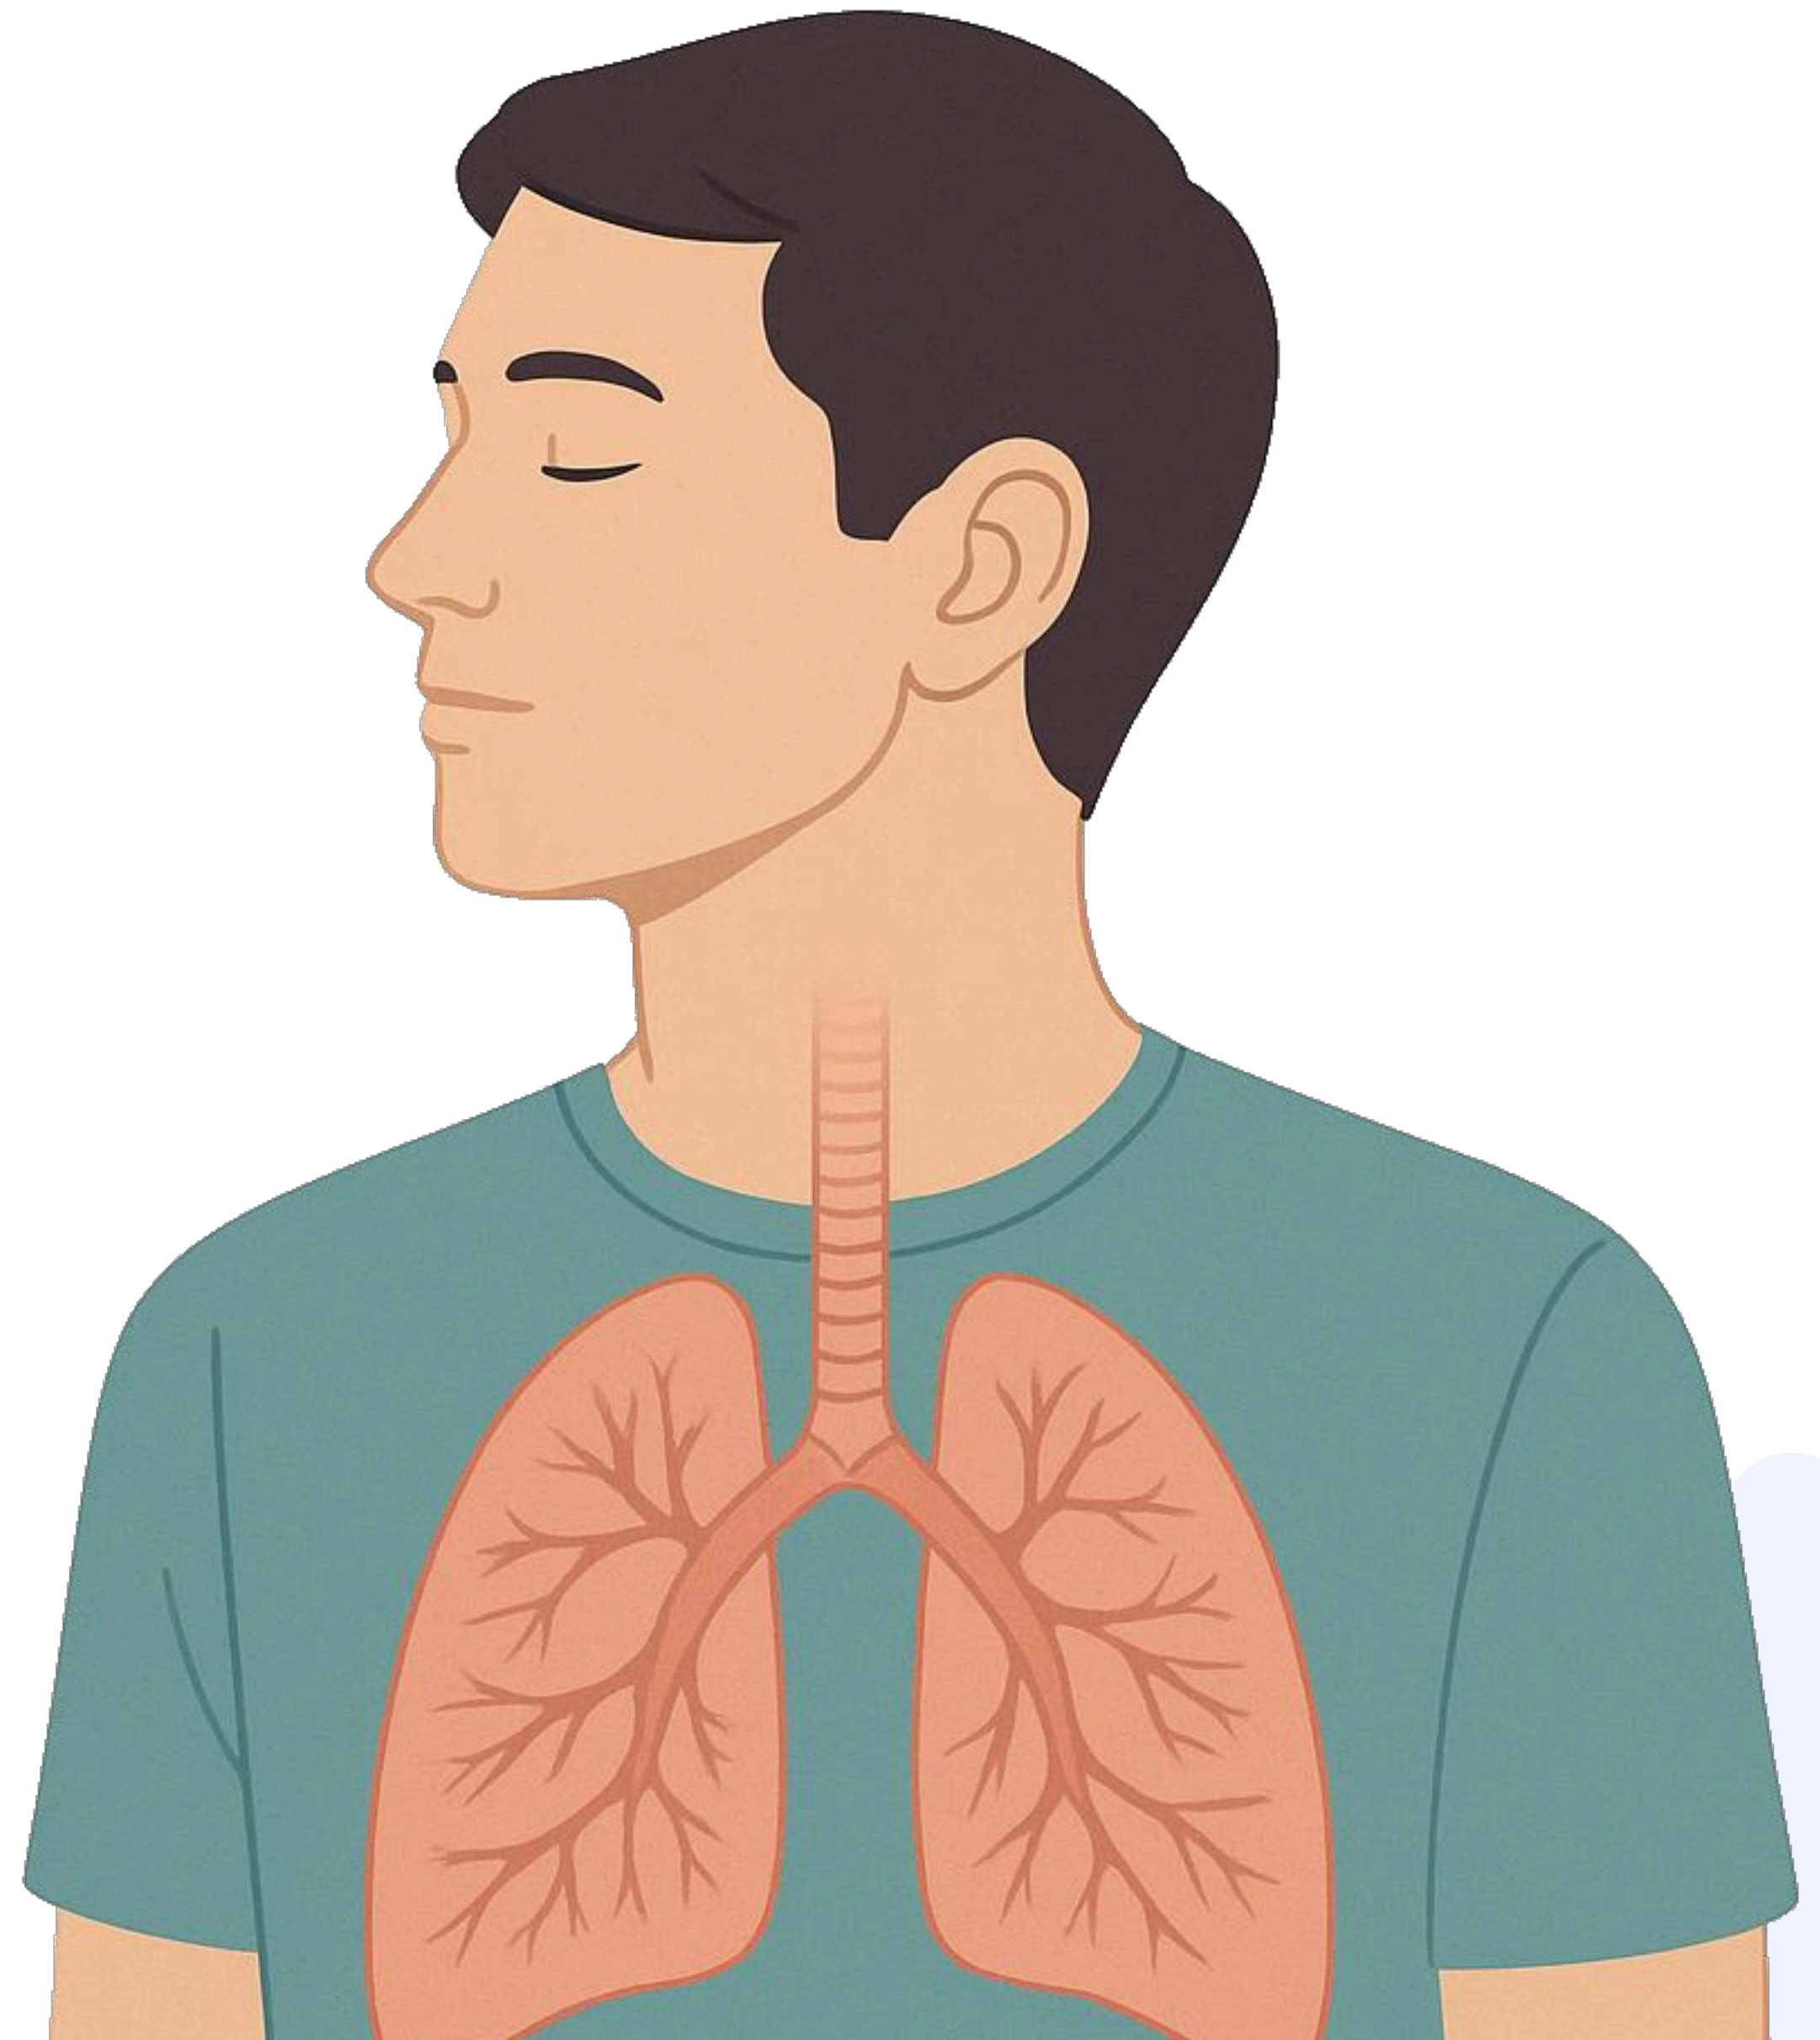

THE IMPORTANCE OF BREATHING

Breathing is essential for every cell in the body.
Modern lifestyles and air pollution can reduce respiratory fitness and lung capacity.

GOAL

Learn how to protect and train the respiratory system.

Healthy breathing begins with awareness and daily practice.

Air Pollution in India

- India ranks among the most polluted nations.
- Delhi's PM2.5 = 10× WHO safe limit.
- 7 of the world's 10 most polluted cities are in India.
- Children and the elderly are the most affected.

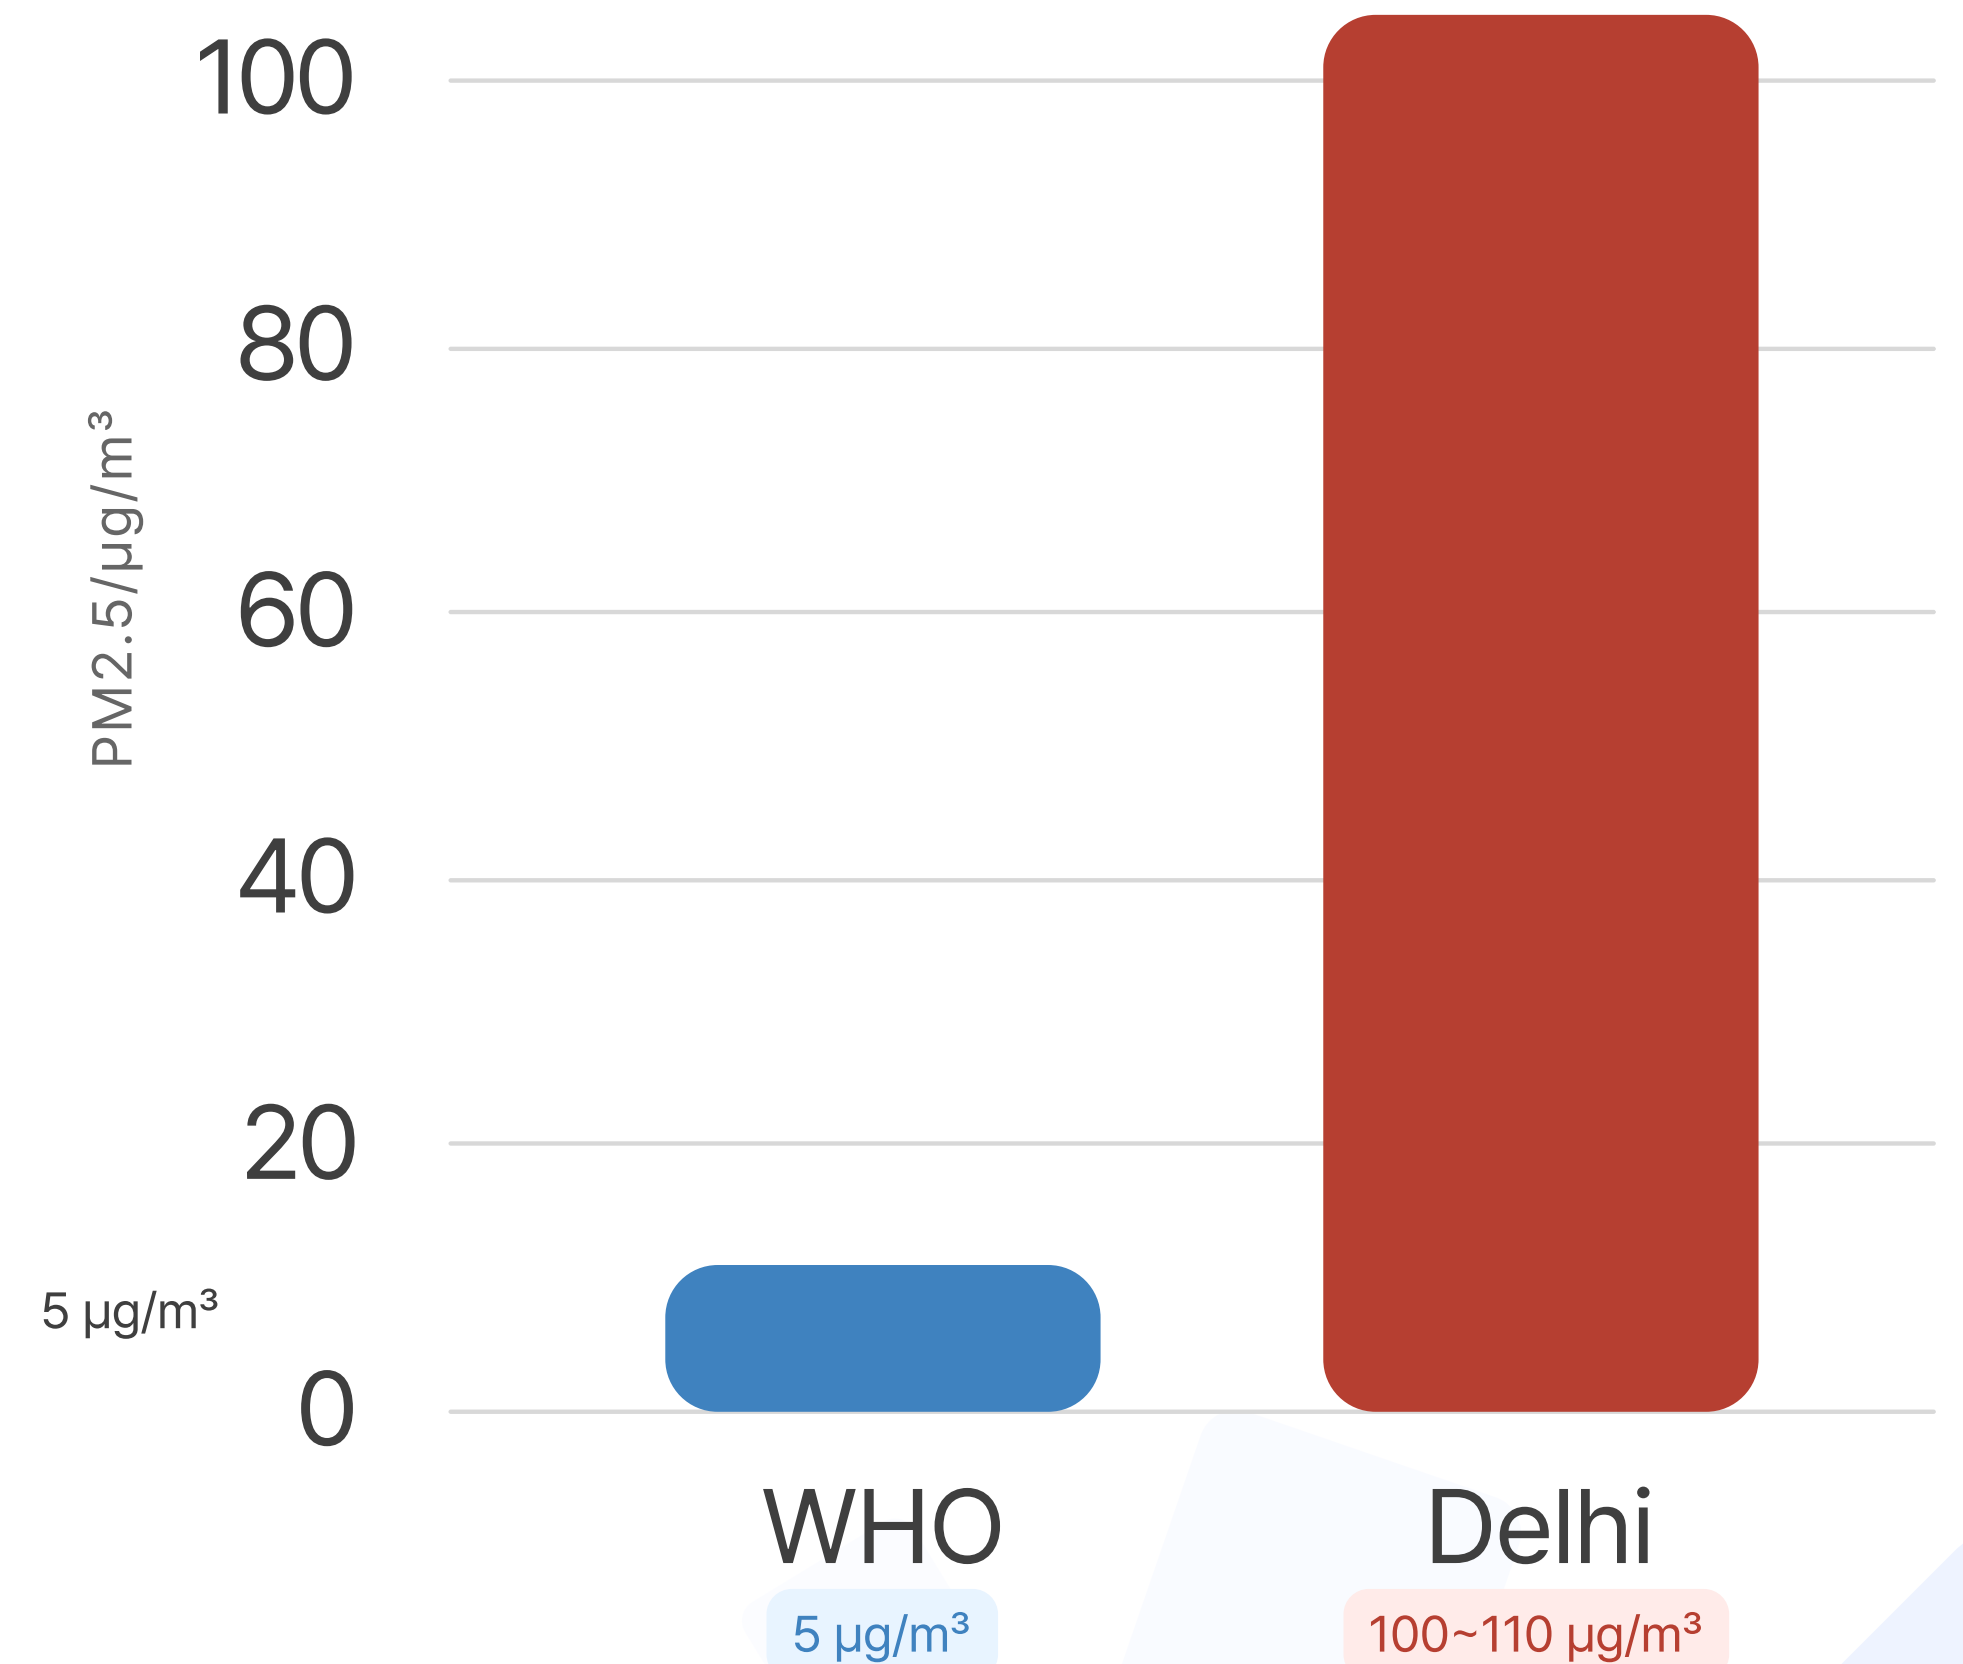

India ranks among the most polluted nations.

7 of the world's 10 most polluted cities are located in India.

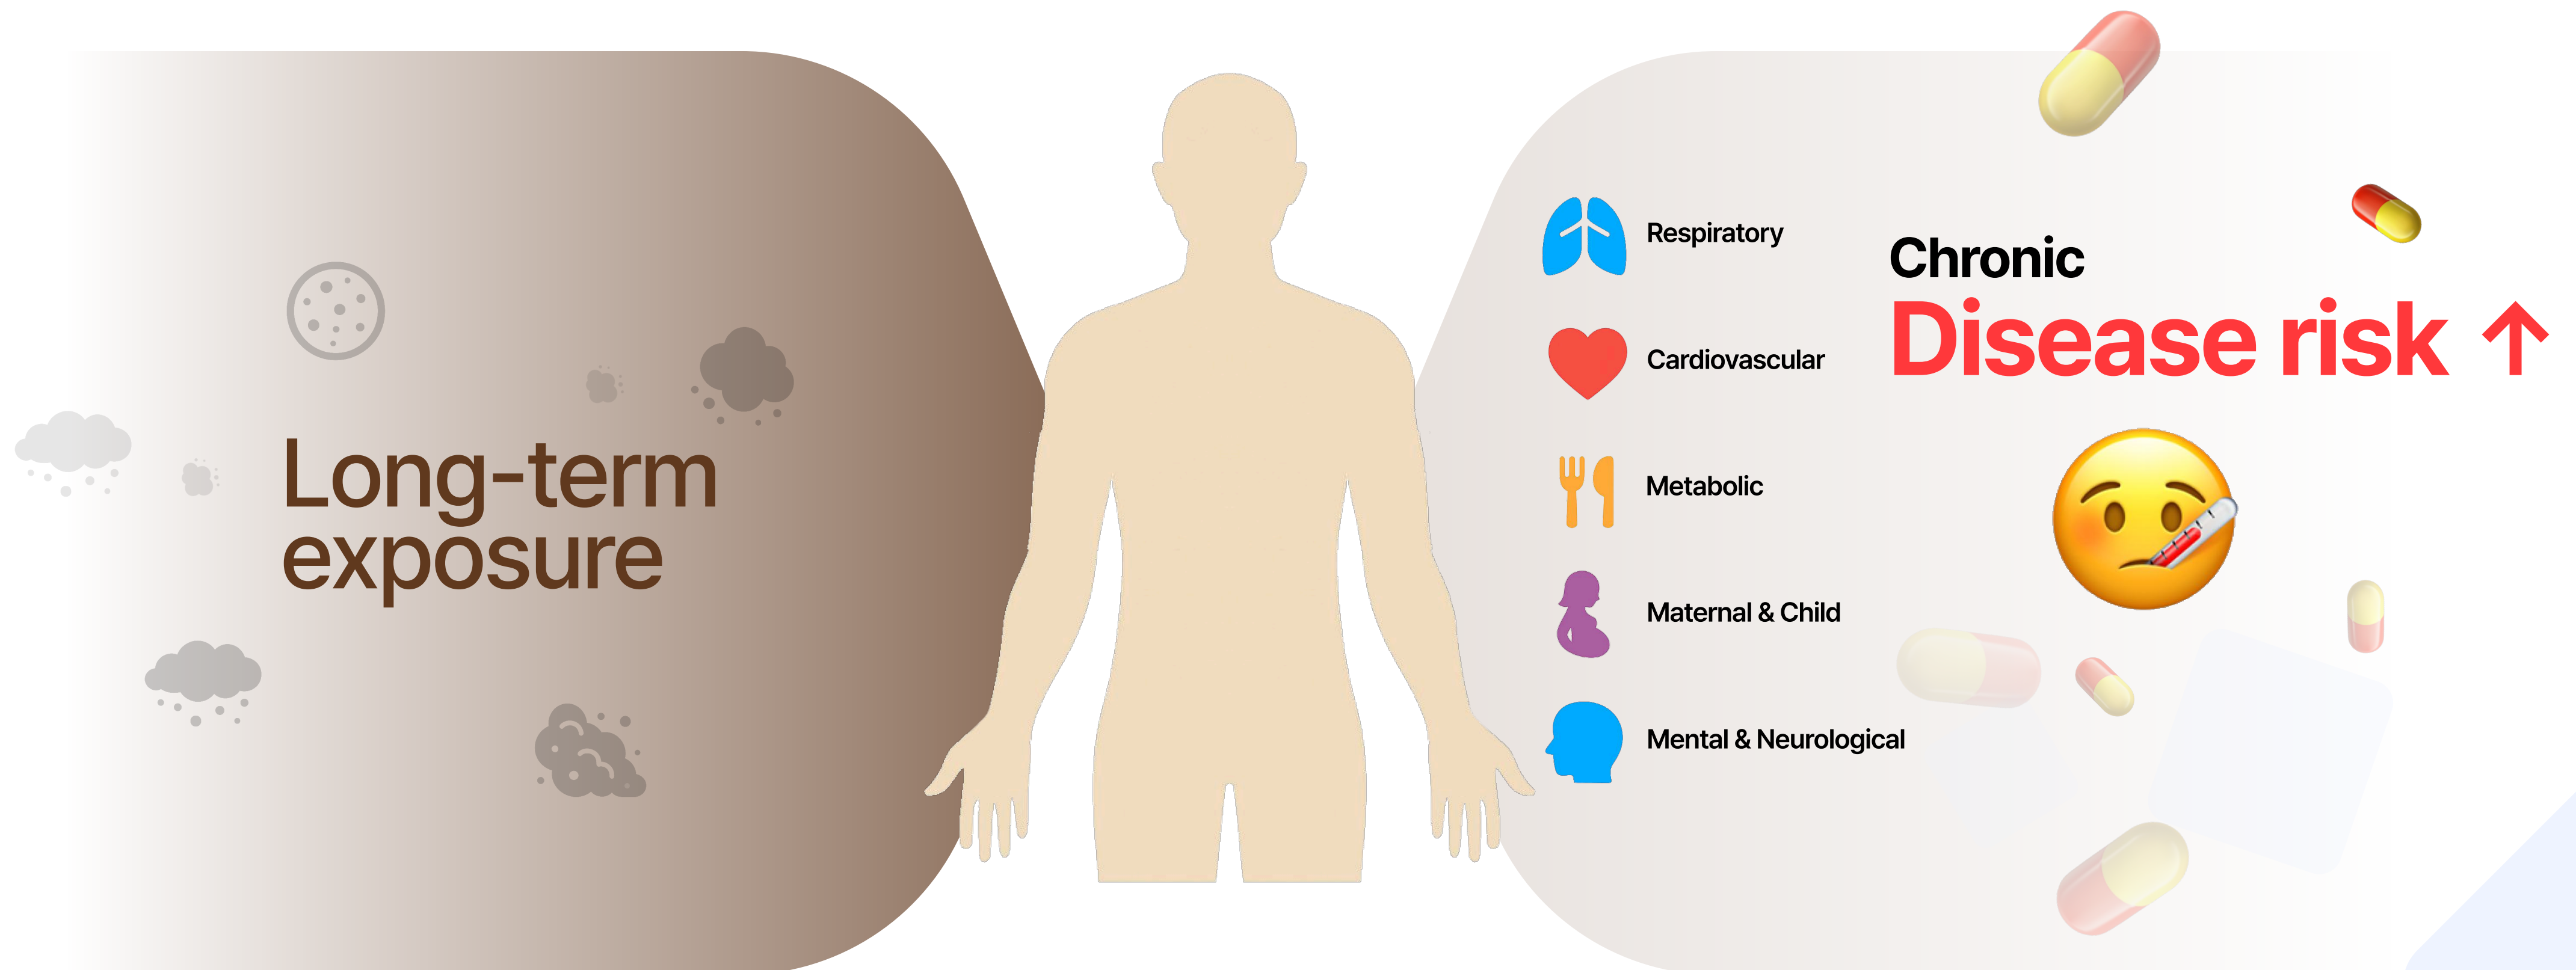

Children and the elderly are especially vulnerable.

Delhi's PM2.5 concentration is about 10 times higher than the WHO safe limit.

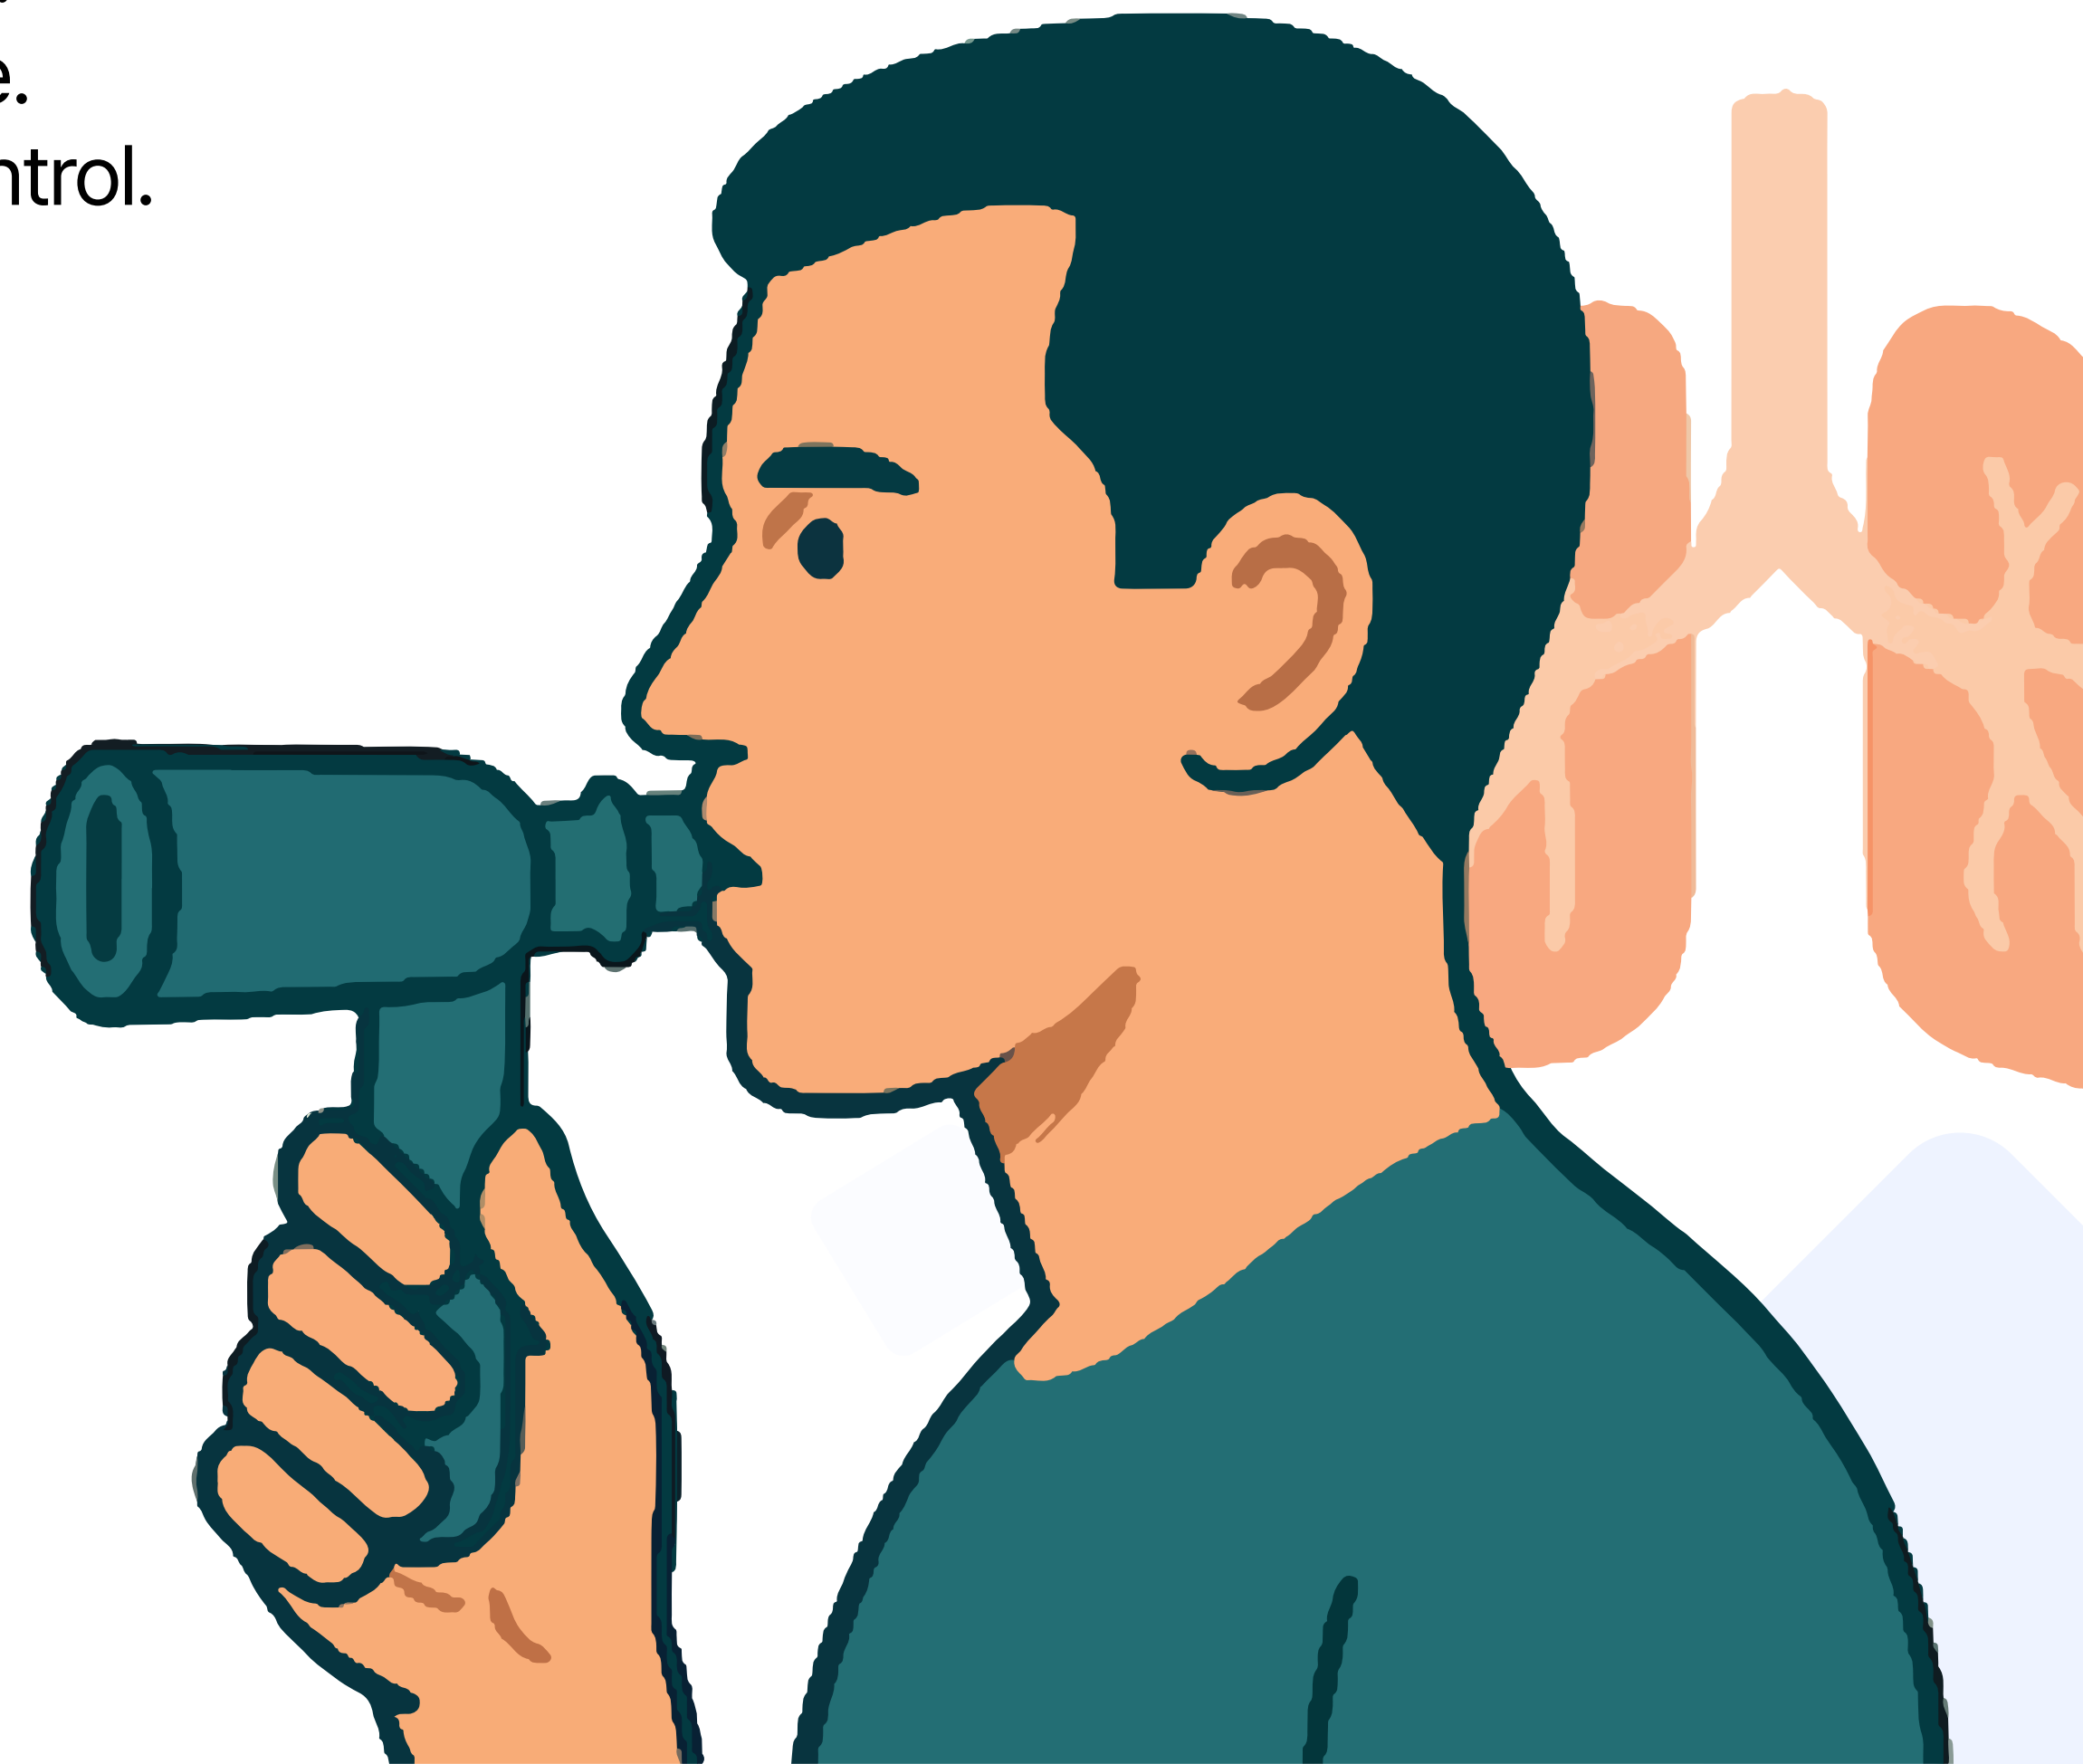

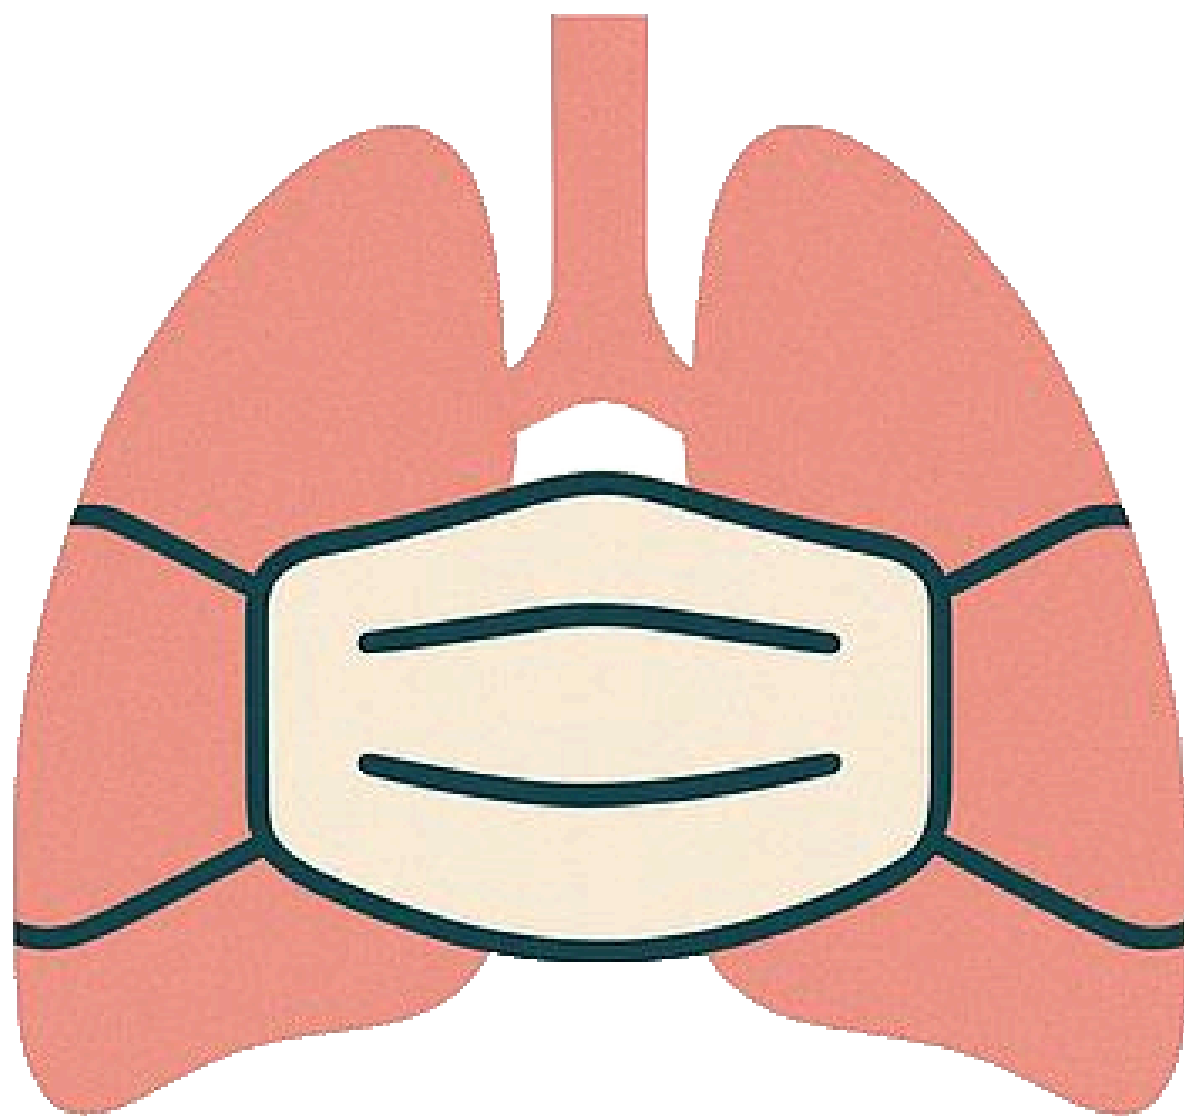

How Pollution Affects the Human Body?

Air pollution can cause inflammation throughout the body.

Why Breathing Rehabilitation Is Needed

- Air purifiers and masks protect, but do not rebuild lung strength.
- Respiratory muscles can be trained — just like any other muscle.
- Breathing rehabilitation improves oxygen flow, strength, and control.

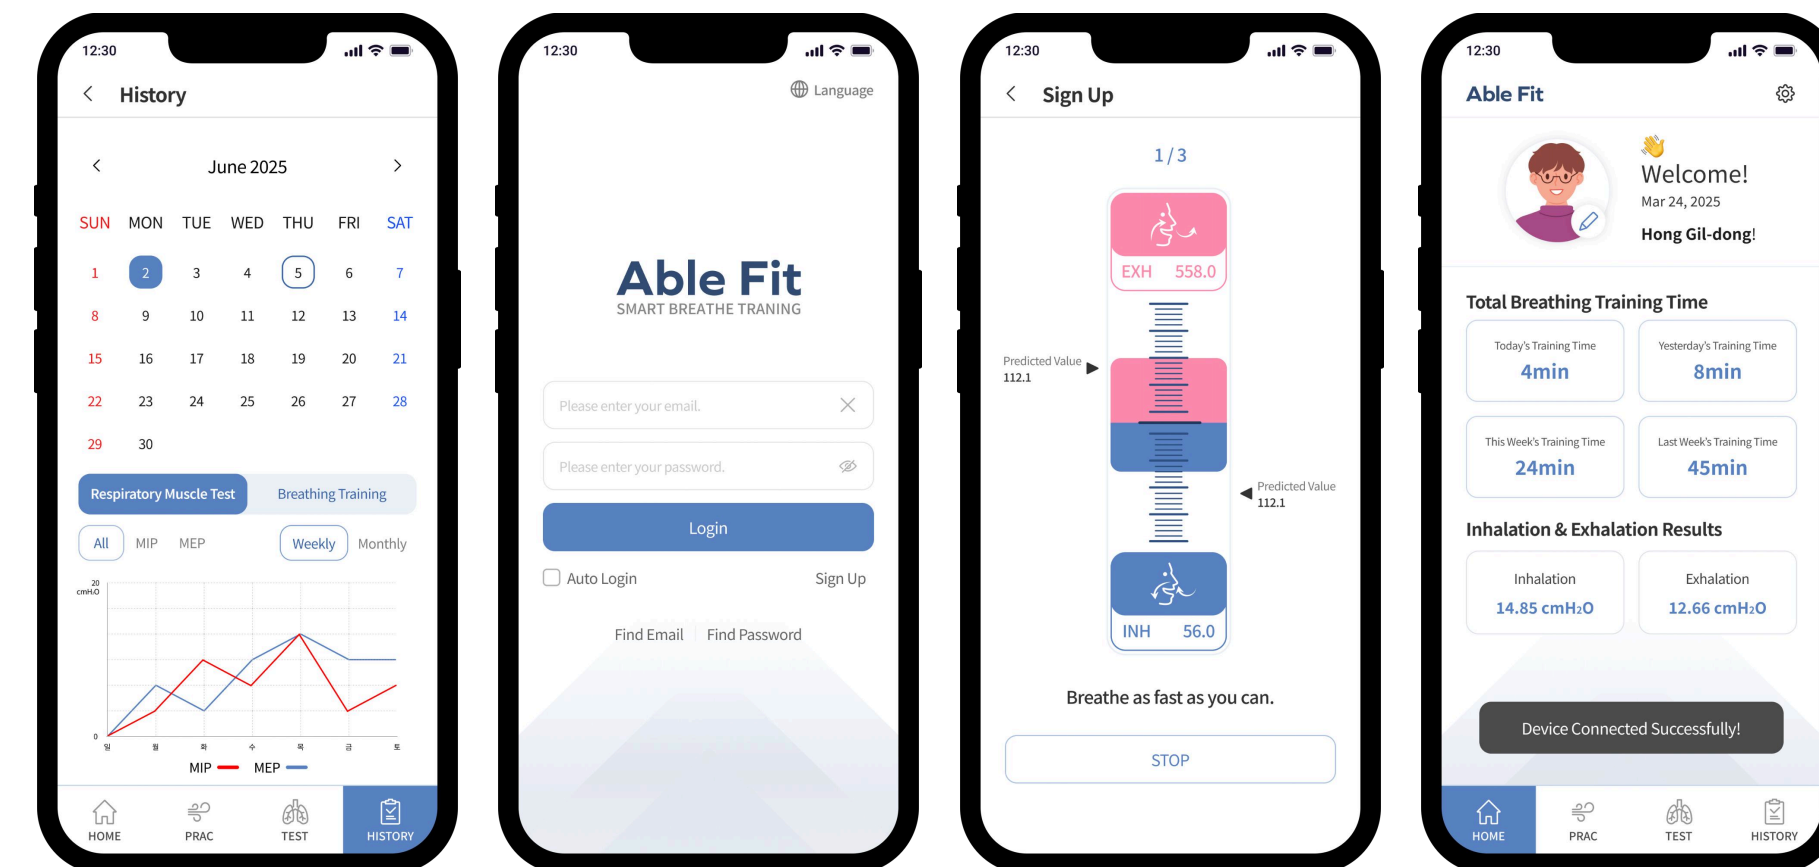

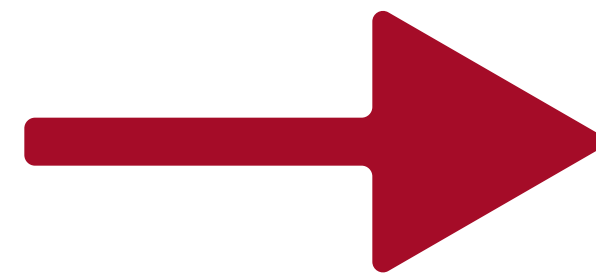

ADDABLE Smart Breathing Solution

- Game-based training that keeps users motivated
- AI-guided feedback ensures proper technique
- Tracks progress through a connected mobile app
- Portable and easy to use at home

ABLEFIT
BETTER FOR YOUR LIFE

Benefits of Regular Training

Effect

Respiratory muscle strengthening

Benefit

Better ventilation

Effect

Improved circulation

Benefit

Lower stress on the heart

Effect

Enhanced oxygen utilization

Benefit

Stronger immunity

Effect

Relaxed breathing rhythm

Benefit

Stress reduction

Building a Healthier India

- Educating families, schools, and hospitals about breathing care
- Integrating AddAble into national preventive health programs
- Supporting India's National Digital Health Mission

Summary & Key Message

- Air pollution weakens the body, but breathing can be trained.
- AddAble makes respiratory rehabilitation accessible for everyone.
- Together, we can build a healthier breathing culture.

Breathe Better.
Live Stronger.
Together.

HELPING INDIA BREATHE BETTER
